Education

Bachelors in Computer Application | Aug 2021 - July 2024

Guru Gobind Singh Indraprastha University, New Delhi

Masters in Computer Application | Aug 2024 - July 2026

Uttaranchal University, Dehradun, Uttarakhand

Experience

Web Developer | Jun 2024 - Dec 2024

Recogsnap Technology Pvt. Ltd, Noida, Uttar pradesh

Gained hands-on experience in building dynamic and responsive web applications using Angular. Contributed to two projects, enhancing my expertise in frontend development. Component-based architecture, and implementing RESTful APIs. Learned React to broaden my skill set and improve my versatility in modern JavaScript frameworks. Strengthened my problem-solving abilities and passion for coding, preparing me for a full-stack development career.

Projects

Travel itinerary website

Guru Gobind Singh Indraprastha University, New Delhi

Developed a full-stack web application using Django, Python and SQLite for the people who love to travel around the world. It helps to find the best place to travel and make a perfect itinerary for them. The website is AI integrated which help us to get 85% accuracy

University Portal

Recogsnap Technology Pvt. Ltd, Noida, Uttar Pradesh

Developed a university portal using MEAN tech stack where students can search for the universities and courses they want to enroll in and also can compare various universities in terms of their placement percentage and average package.

Admin portal for school Robot

Recogsnap Technology Pvt. Ltd, Noida, Uttar Pradesh

Developed an Admin portal using MEAN stack. Built this project for a school which is integrating robots as a helper for students and parents. We are building a portal to control the robot and giving answers to users' questions.

AI chatbot

Developed an intelligent chatbot application using React and the Gemini API, enabling real-time conversational capabilities. Focused on creating a user-friendly interface, integrating API endpoints, and handling dynamic responses efficiently. This project enhanced my skills in React component management, API integration, and asynchronous programming, while deepening my understanding of AI-driven applications.

Technical Skills

Skills: Software development, DSA, problem solving, MySQL

Languages: C++, JavaScript, Typescript, Python, HTML, CSS

Frameworks/Libraries: React, Angular, Express, Tailwind, MongoDB

Tools: Git, VS Code, Postman, Docker, Supabase, Appwrite, Linux
