# Education

### Bachelors in Computer Application          Aug 2021 - Jul 2024
Guru Gobind Singh Indraprastha University, New Delhi

### Masters in Computer Application          Aug 2024 - Jul 2026
Uttaranchal University, Dehradun, Uttarakhand

# Experience

### Web Developer                                    Jun 2024 - Dec 2024
**Recogsnap Technology Pvt. Ltd, Noida, Uttar pradesh**
Gained hands-on experience in building dynamic and responsive web applications using Angular. Contributed to two projects, enhancing my expertise in frontend development. component-based architecture, and implementing RESTful APIs . Learned React to broaden my skill set and improve my versatility in modern JavaScript frameworks. Strengthened my problem-solving abilities and passion for coding, preparing me for a full-stack development career.

# Projects

### Travel itinerary webapp
**Guru Gobind Singh Indraprastha University, New Delhi**
Developed a full-stack web application using Django, Python and SQLite for the people who love to travel around the world. It helps to find the best place to travel and make a perfect itinerary for them. The vvebApp is Al integrated which help us to get 85% accuracy.

### Job Portal
**Guru Gobind Singh Indraprastha University, New Delhi**
Developed a full stack website using HTML, CSS, PHP for recruiters and job seekers. This website help candidates to search and find jobs according to their skills and recruiters can post jobs by registering as a company.

### University Portal
**Recogsnap Technology Pvt. Ltd, Noida, Uttar Pradesh**
Developed a university portal using MEAN tech stack where students can search for the universities and courses they want to enroll in and also can compare in

various universities in terms of there placement percentage and average package.

### Admin portal for school Robot
**Recogsnap Technology Pvt. Ltd, Noida, Uttar Pradesh**
Developing a Admin portal using MEAN stack. Built this project for a school which is integrating robots as a helper for students and parents. We are building portal to control the robot and giving answer to users questions.

### Al chatbot
**Built an Al chatbot**
Developed an intelligent chatbot application using React and the Gemini API, enabling real-time conversational capabilities. Focused on creating a user-friendly interface, integrating API endpoints, and handling dynamic responses efficiently. This project enhanced my skills in React component management, API integration, and asynchronous programming, while deepening my understanding of Al-driven applications.

# Certificate
**Robotics Process Automation (RPA)**
